

Tips for Learning @ Home

Congratulations on navigating the online platforms and accessing your subject materials during Week 1! By now you should be able to find all of your subject materials and know how to email your teacher. We have learnt a lot and no doubt you have too! Some important tips for you as we move forward into Week 2.

CONNECT WITH YOUR TEACHER

Be sure to email your teacher every lesson and let them know how you are going with your learning. They are waiting at the other end to hear from you! Ask for feedback regularly and remember, there are no wrong questions. If you are unsure about anything, we want to help!

MAINTAIN A ROUTINE

Following the school timetable within your Virtual Classroom allows you to follow an allocated 70 minutes to each subject. Take time for your breaks spending time outside enjoying fresh air.

PUT YOUR PHONE AWAY

Turning your phone off or putting it in another room during your allocated study time will help you become more productive. If you're scared that you'll miss something, tell your friends you'll be unavailable between certain hours, so they'll know not to try reaching you.

YOUR LEARNING ENVIRONMENT

Set up a designated area for learning free from distraction. Keep your desk tidy and spend a few minutes each day planning the day ahead. You may have to share your working space, so keep your items together in a handy location.

HAVE A FLEXIBLE MINDSET

Sometimes the technology may not always work or perhaps you have to get groceries with your parents, remember that is ok too! So be sure to maintain a flexible mindset on the situation, remember we're all in this together! Stay connected with us and we can work it out.
